## NEW! An Immuno-Oncology Network for Patient Organizations

Immuno-oncology therapies are expected to become one of the cornerstones of cancer treatment. With this in mind, an Immuno-Oncology Network for Patient Organizations was established at an initial Steering Committee meeting. The Patient Network aims to become a leader and important resource in the area of Immuno-Oncology.

One of their priorities for 2016-17 will be to hold a 2-day patient summit to educate patient advocates. The summit will be held for a broader group of patient advocacy leaders and representatives from various disease areas to be educated and to share best practices. For more information, please view document attached.

## Watch & share! Psoriasis awareness video for kids!

Our subsidiary organization, the Canadian Association of Psoriasis Patients (CAPP) recently launched a children’s video to raise awareness of pediatric psoriasis. Fitting for many other skin conditions, the video walks through a day in the life of a young child diagnosed and living with psoriasis. As well, they touch on the psycho-social impact a

visible skin condition can have on a child. This video is available in French and English and we encourage you to share it with your stakeholders. There is also a Children’s Art Contest underway to mark World Psoriasis Day 2016. More information is available at:

## REMEMBERING

Tanny Nadon

Earlier this year, the dermatology community mourned the loss of Tanny Nadon. She was an inaugural member of the CSPA Board of Directors and a founding member of the Alberta Society of Melanoma, which became an affiliate of the CSPA. To honor and remember Tanny our Affiliate Grant program will now be called the Tanny Nadon Affiliate Grant.
